

## Dr. Johannes Schmidt

Dr. Johannes Schmidt has gained extensive international knowledge in the port and logistics sector with a focus on strategic planning, sustainability and innovation management. He started his career in the port industry as research associate in the Port of Hamburg. Afterwards, Johannes joined HPC Hamburg Port Consulting as Senior Project Manager, where he managed several international projects. He has a deep understanding of overall port development and management by working as Senior Manager at the Port Authority of Hamburg. In 2024, Johannes joined *Port of Antwerp-Bruges International* as Manager Port Projects. His mission here is to support the port and logistics industry to improve competitiveness, drive efficiency and foster innovative and sustainable business models.
